Spring Mills Veterinary Hospital Tri-Monthly Newsletter

April, May, June

Did you know??

Cats have glands between their paw pads that secrete oil, to mark their territory with their scent wherever they walk.

Snowball is still here looking for a forever home!!

We now carry Seresto Collars!

- ❖ The Seresto Collar is easy to apply to your dog or cat and provides 8 months of continuous protection.
- ❖ Active ingredients are released in low concentrations for 8 months and are distributed over pet's hair and skin surfaces.
- ❖ As active ingredients wear off over time, Seresto continuously replenishes the skin with a new supply of active ingredients.
- ❖ In the unlikely event of your dog or cat being trapped, your pets own strength is sufficient to widen the collar at the release mechanism.
- ❖ The Seresto collars are odorless, non-greasy, and water resistant.

If interested talk to a staff member today!!

Just a friendly reminder Dr. Thompson now goes by Dr. Nelson
